Dear Dr. Baumgardt:

I have made sketches or photographs of the eclipse pictures which you so kindly lent me, and I am now ready to return those valuable books. I didn't want to send them until I was sure of your address. Please let me know how to address those books.

I have looked them over with great interest, and appreciate the opportunity of seeing them.

I hope your lecture tours are having a great success.

Sincerely yours,

*A. E. Douglass*
